

Hi,

My name is Igor Dajic and I am a sales director in the HR company Tehnika TEMP&PERM, that operates in a wider Adriatic area.

The 4th Pillar platform is a unique tool for a variety of HR solutions; our team of recruiters will have a possibility to search and attract potential employees on the basis of proven data. The possibility to transparently transfer yearly rewards and bonuses without any intermediaries is a feature that will give us the advantage on a crowded HR market.

Best regards

Igor Dajic
